# Perimeter

Find the perimeter of the shapes shown in the grid (the side of each square = 1 cm). Color the shape with greater perimeter.

Perimeter of shape A =  $3\text{ cm} + 3\text{ cm} + 2\text{ cm} + 2\text{ cm} + 1\text{ cm} + 1\text{ cm} = 12\text{ cm}$

Perimeter of shape B =  $6\text{ cm} + 2\text{ cm} + 4\text{ cm} + 2\text{ cm} + 2\text{ cm} + 2\text{ cm} + 1\text{ cm} + 1\text{ cm} = 20\text{ cm}$

Perimeter of shape A =  cm

Perimeter of shape B =  cm

Perimeter of shape A =  cm

Perimeter of shape B =  cm

Perimeter of shape A =  cm

Perimeter of shape B =  cm

Perimeter of shape A =  cmPerimeter of shape B =  cm

Note:- The figures are not drawn to scale.
