Slow clock & Fast clock

Find the correct time under given circumstances.

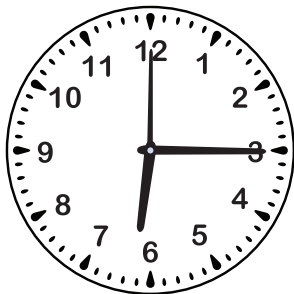

Explanation

Fast clock

If a clock shows 8 : 15 and correct time is 8 :00, then it is 15 minutes fast.

Slow clock

If a clock shows 7 : 50 and correct time is 8 :00, then it is 10 minutes slow.

This clock is 10 minutes fast

Correct time

6 : 05

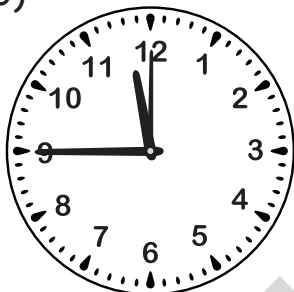

a)

This clock is 15 minutes slow

Correct time

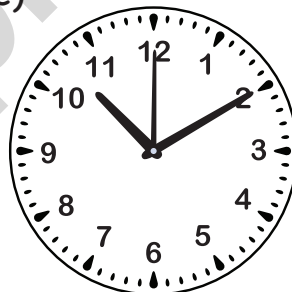

b)

This clock is 20 minutes slow

Correct time

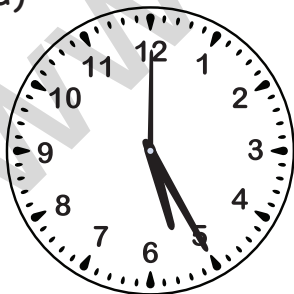

c)

This clock is half an hour fast

Correct time

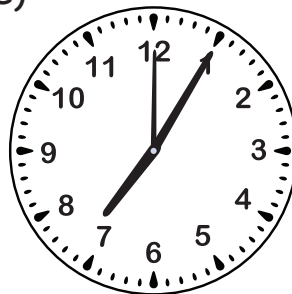

d)

This clock is 10 minutes slow

Correct time

e)

This clock is 20 minutes fast

Correct time
